

## CEPAR Summer Scholarship Application Form 2023/24

**Project Code:** CEPARSS2403

**Project title**

Provide a short descriptive title of no more than 20 words.

China's population ageing, housing demand and economic growth
---

**Supervisor**

Name: Larry Liu	Location: ANU Crawford School Node	Email: larry.wf.liu@anu.edu.au
-----------------	------------------------------------	--------------------------------

**Project summary**

<p>China has been experiencing dramatic population ageing and is expected to age more rapidly in the next several decades. This demographic change has significant impacts on housing demand. China's economic growth in the last several decades heavily depends on housing booming and its government revenues massively relies on housing-related economic activities. The demographic impacts on housing demand not only involve housing sectors but many upstream and downstream sectors. The conventional argument that populating ageing affects economic growth through the channel of labor supply is much less important in China's context. This project aims to investigate the impacts of China's population ageing on its economic growth at the sectoral and aggregate level in the input-output approach which explicitly captures the linkage between sectors.</p>
---

**Role of the scholarship holder(s) in the project**

Initial literature review Data collection
--

**Required knowledge, skills and/or training**

Basic knowledge of economic growth Basic knowledge of input-output tables
--

**Preference**

Economics major is preferred
------------------------------

**Work period**

The work period may be broken into two parts as students will not be expected to work during the UNSW shutdown over Christmas/New Year.

Total work weeks: up	The supervisor and the scholarship holder will discuss a mutually acceptable 6 week period over the summer term.
